### Water saving

3/4.5L double-level water conservation design is lower than the national water conservation criterion of 6L.

### Powerful flushing

Powerful flushing high-level cistern is equipped with a 3-in. drainage valve, which increases instantaneous water discharge to 2.25 times the volume of a conventional 2-in. drainage valve.

### Ultrathin urea formaldehyde seat cover

Ultrathin urea formaldehyde seat cover: It features ceramic texture, and is durable and crush resistant. It falls down silently upon a slight touch by finger, with high efficiency in sound reduction.

### Quick-removing seat cover

The seat cover is equipped with metal hinge which enables it be removed in simply one second. It features keyless assembly and disassembly, durability and easiness to be removed for surface cleaning.

### Water flow distribution for dual flush

With 30% for flushing and 70% for ejection, this technology accelerates siphonage and strengthens impulsive force.

### Easy-to-clean glazed surface

Produced under high temperature (1,250°C) of baking, the 1.1 mm thick easy-to-clean glazed surface covers tiny pores in three layers.

1. Less pinholes and cracks in priming glaze
2. Anti-dirt surface and high efficiency in bacteria inhibition
3. Beautiful, clean and glossy appearance

### World-class fittings

Every Geberit fittings has passed over 200,000 times of durability tests, equivalent to a service life of over 50 years for an ordinary household (estimated by 10 times per day). Its noise level is lower than 20 db, meeting the European standard.

### Low water absorption

Water absorption target of sanitary ceramics :

National standard:  $\leq 0.5\%$

European standard:  $\leq 0.5\%$

Innoci brand standard:  $\leq 0.2 - 0.3\%$

### Large-diameter pipe for quick blowdown

Large-diameter (50 mm) design ensures free and rapid passage of dirt to avoid blockage.
